- Provided training both “on the job” and in class rooms
- Hardware ordering and building

EDUCATION

Kevin St. DIT (Dublin)

BSc Hons 2:1, Computer Science (FT-228), 2003-2007

HOBBIES

Practicing python, automating systems, letting computers do the work

Staying active, whether it be going to the gym, running or cycling.

Small scale electronics and building systems from them

Bicycles and motorbikes, using, fixing and building

PC gaming, but it's low on my priority list
